"Handpainting and embroidery"

Embroidery is a key highlight of LINKY collections. Our embroidered silk fabrics feature traditional embroidery and fine hand-craftsmanship with great artistic value.

Designs incorporate flowers, animals, landscapes and more, reflecting profound cultural heritage and superb hand-craft skills.

LINKY has profound expertise in embroidery, including its history, techniques, materials and applications. We are familiar with regional and cultural embroidery traditions, its historical evolution, as well as basic embroidery skills and tools.Stuffed embroidery

“Golden Hills Abound”

This embroidered piece Golden Hills Abound features gilded mountain motifs, conveying blessings of wealth and prosperity.

“A Thousand Li of Rivers and Mountains”

A Thousand Li of Rivers and Mountains is a famous Northern-Song landscape painting, reproduced on our embroidered silk wall fabric.

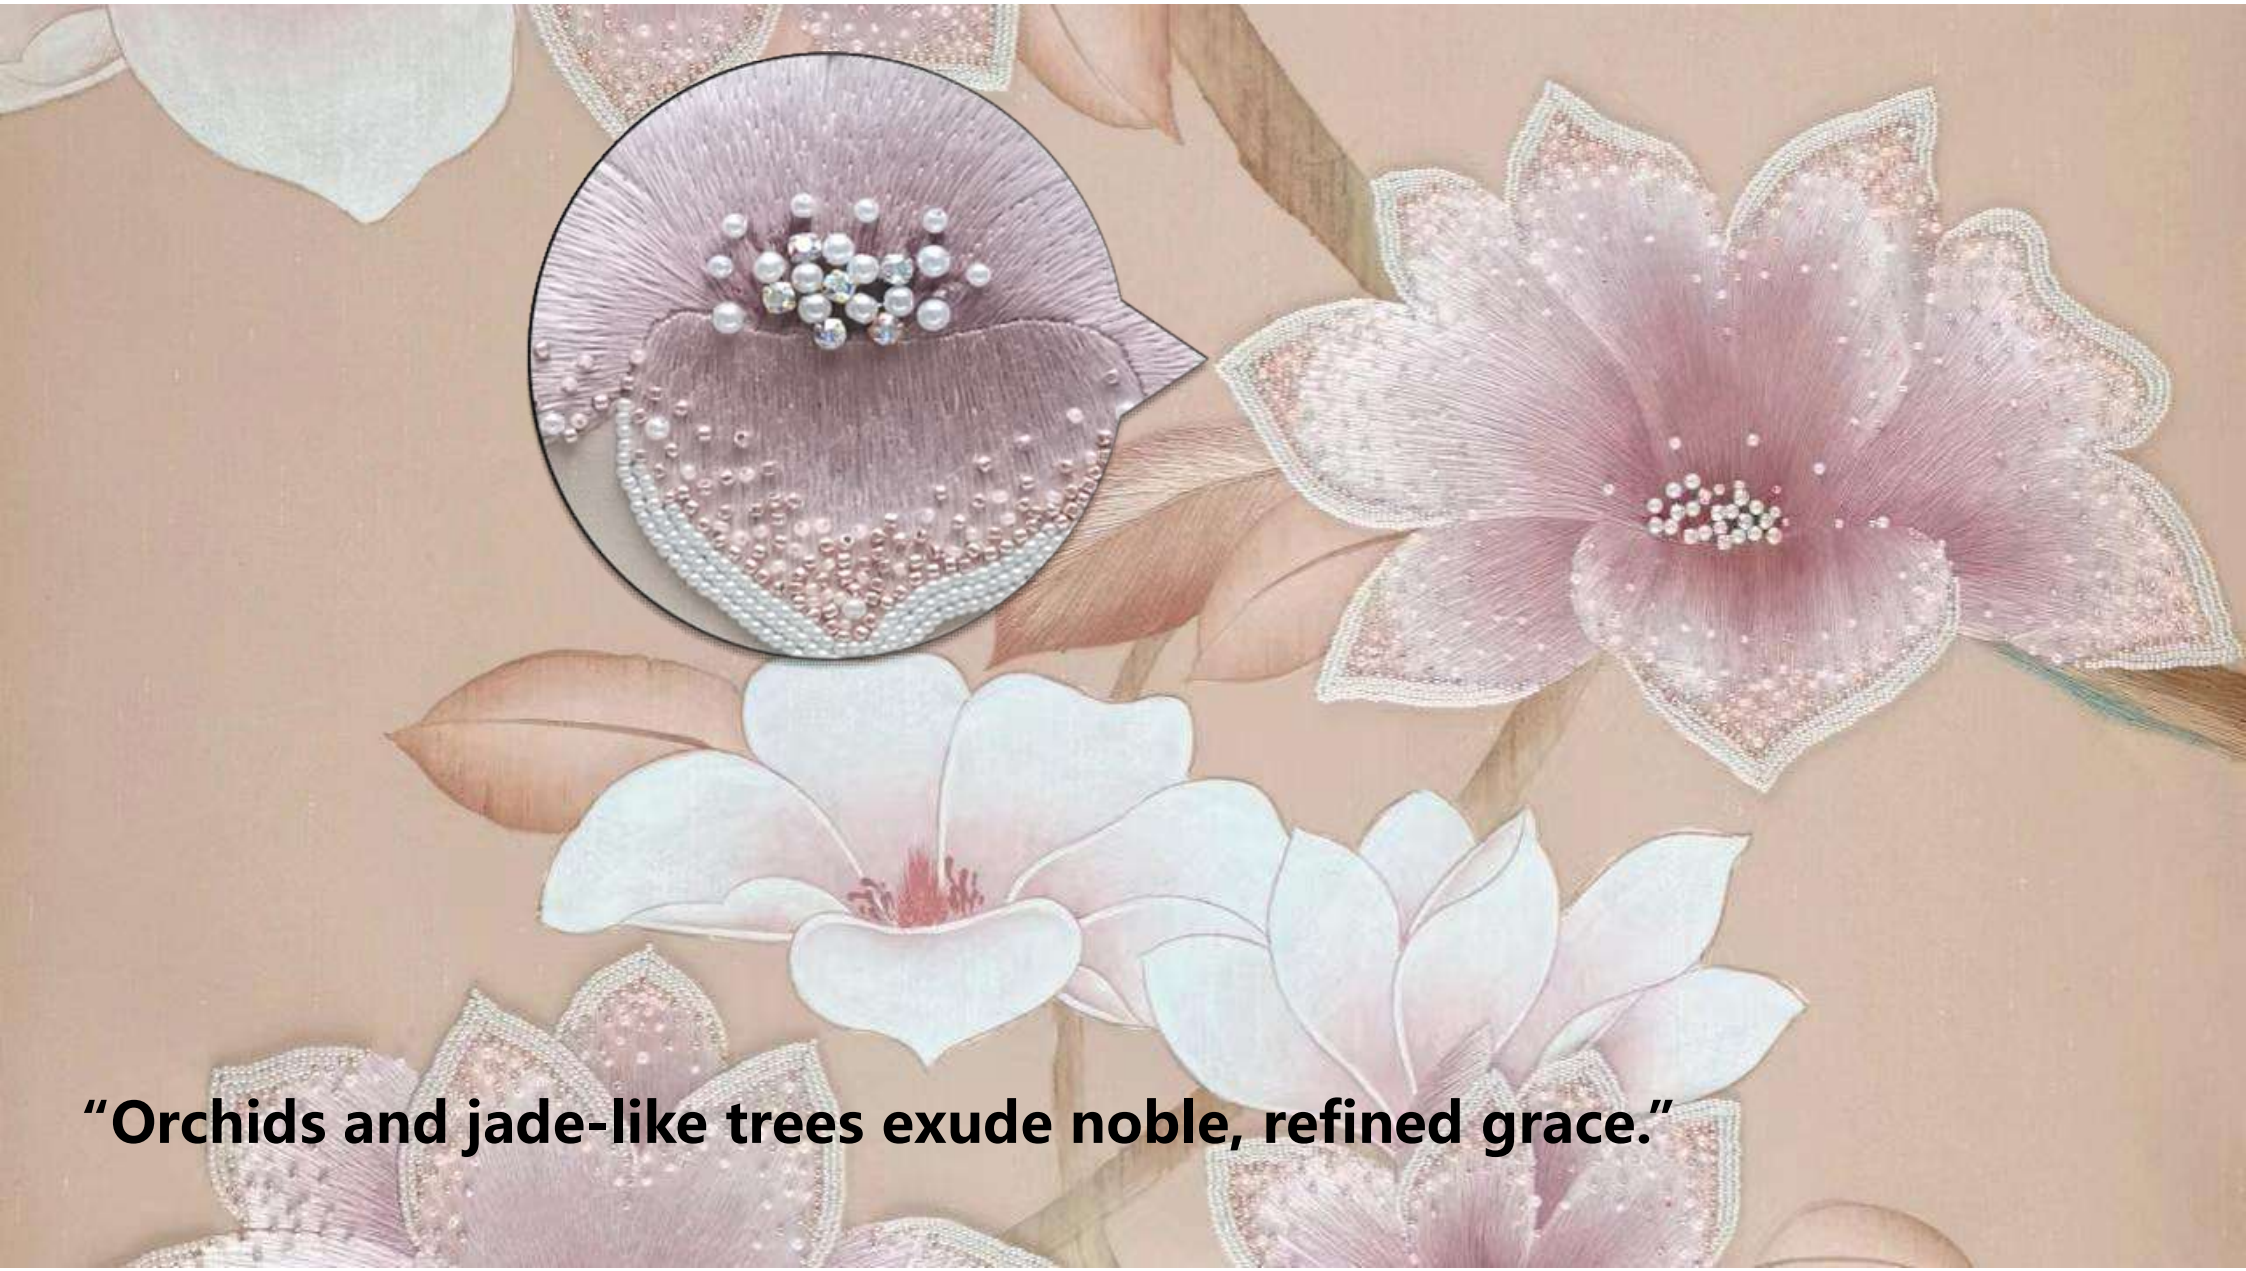

Freehand Painting / Hand- applied Foil & Bead Embroidery

Freehand painting highlights the vivid spirit and artistic charm of the subject.

Hand- applied foil paired with bead embroidery brings out luxurious foil finish and delicate beadwork. Such combination generates distinctive art pieces, showcasing outstanding craftsmanship and creative ingenuity.

"Cranes Cry on Nine Marshes"
It evokes the crisp, melodious call of cranes
echoing across nine high moorlands,
symbolizing a serene and peaceful ambiance.

“Orchids and jade-like trees exude noble, refined grace.”

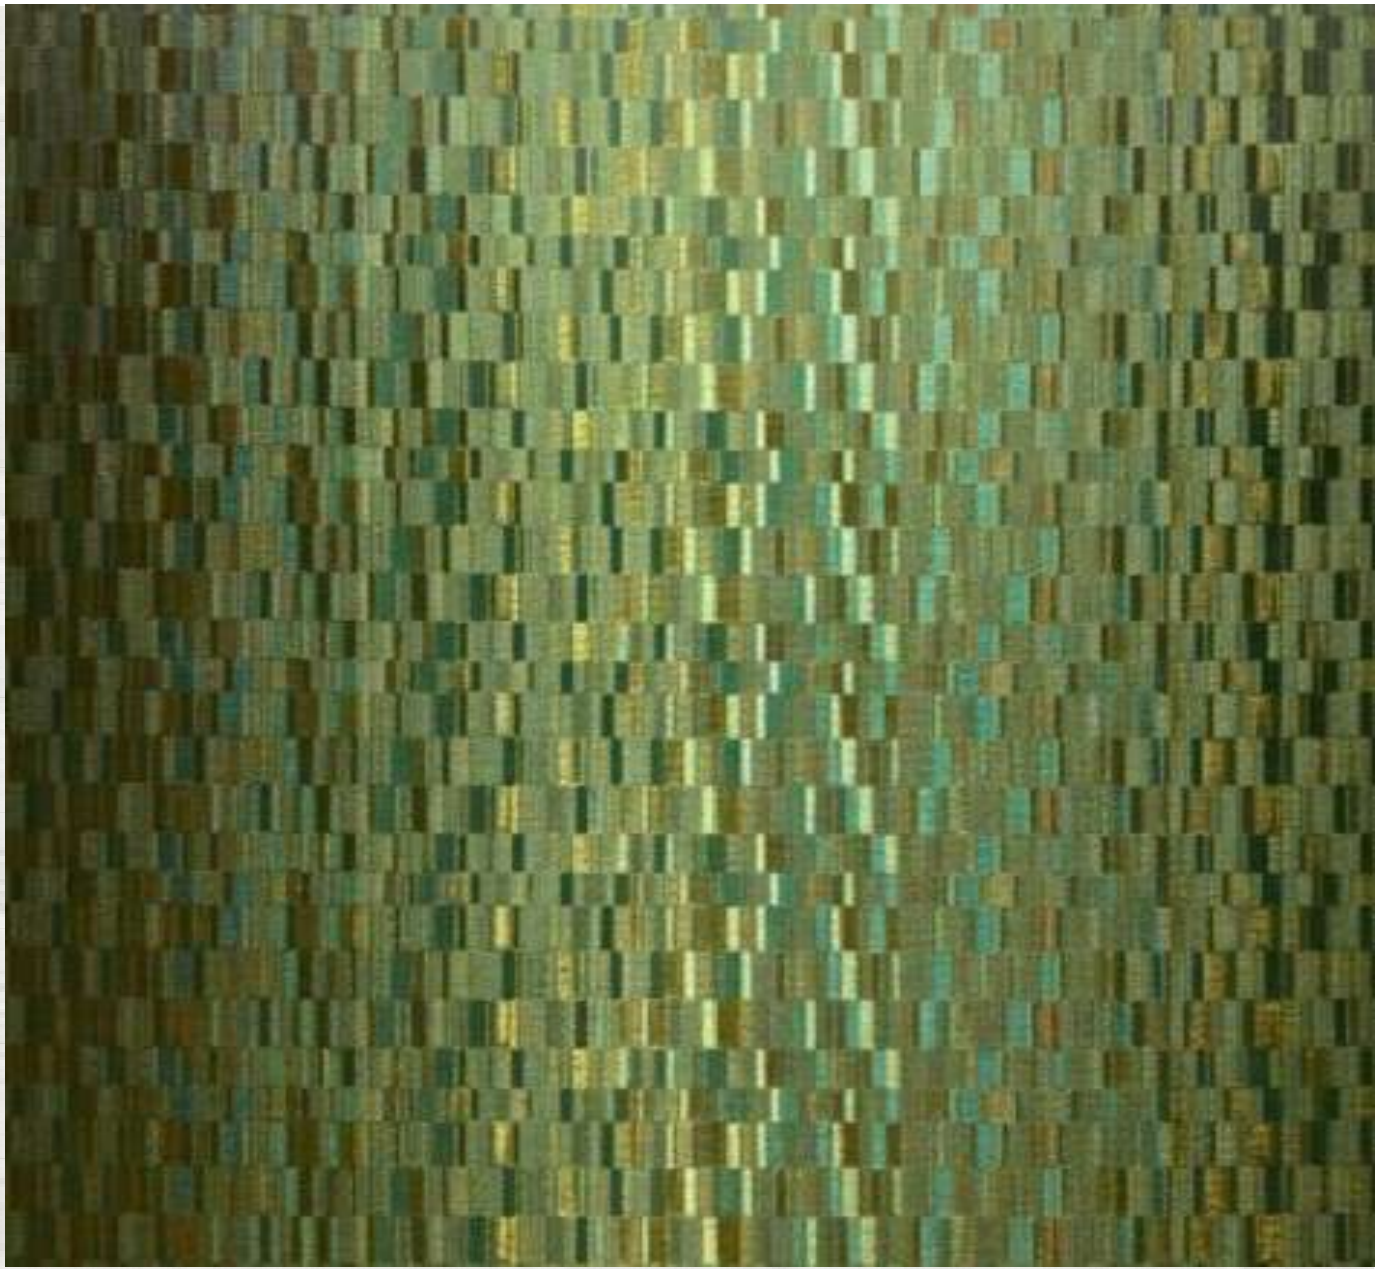

"Woven Metallic Fabric"

Woven Metal Wire Wall Fabric features refined metal weaving craftsmanship. It combines soft textile tactility with elegant metallic luster, presenting unique three-dimensional texture and modern luxury aesthetics. Durable, stylish and highly decorative, it creates premium interior space effects for high-end projects.

Usage scenarios:

Surface of furniture

Public areas

“Flowing Time”

Size: 800cm*320cm

Designed for hotel lobbies, this metallic wall-covering delivers wavy fluid textures. Subtle shimmer shifts with light, creating soft dynamic visual effects. It brings sophisticated understated luxury to high-end public interior spaces.

Made of premium metallic wall fabric, this artwork features gilded ancient pine and rock motifs. Fine embossed textures shimmer softly under light.
Rooted in oriental charm, it serves as a stunning backdrop for hotel lobbies and luxury commercial spaces with understated nobility.

This folding screen adopts metallic wall-covering with classical Chinese mountain-pavilion scenery. Silver patterns contrast beautifully with bronze-gold base.
Flexible hinged panels divide space gracefully, ideal for hotel public areas to deliver elegant oriental luxury.

Custom metal wire mesh screens
serve as booth partitions.

"Circular Dream"
Size:120cm*100cm

"Shell Panel "

Crafted from thinly-sliced natural shells, shell marquetry features unique iridescent pearlescent luster that shifts with light.
Hand-cut pieces form custom geometric or floral patterns for high-end wall panels, furniture and decorative accents. Luxurious, eye-catching for premium interior projects.

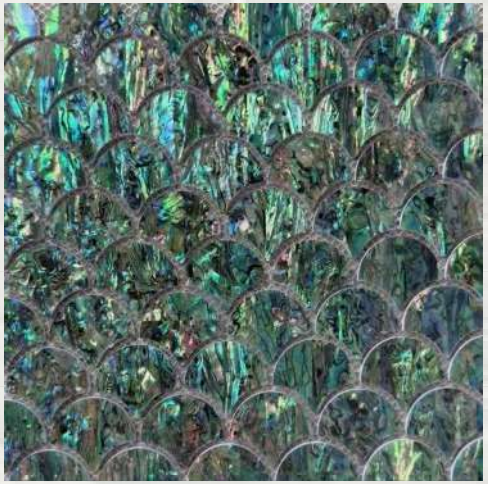

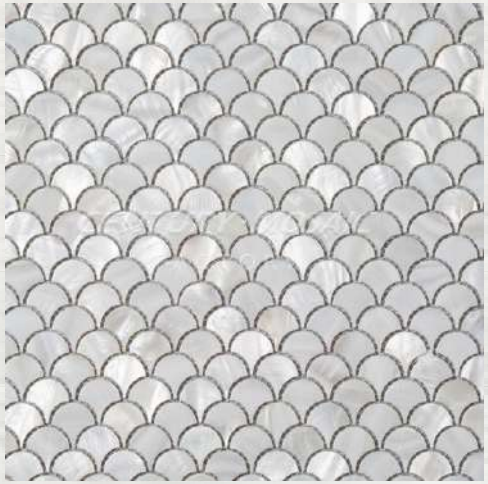

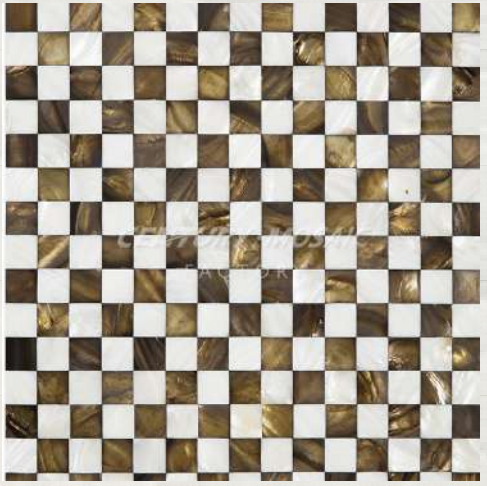

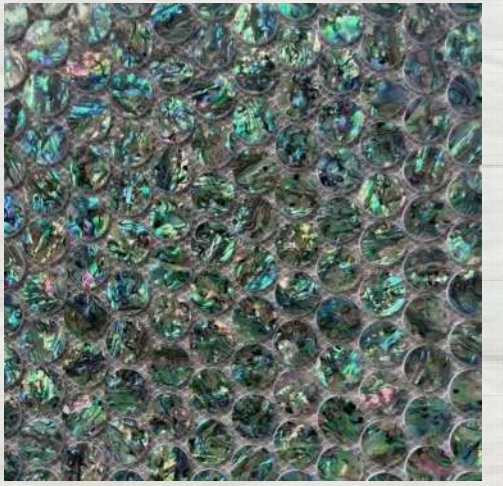

"Veneer Inlay"

Wood veneer marquetry assembles thin natural veneers of various timber species into artist patterns. It showcases authentic wood grain and warm natural tones. Widely applied on flooring, wall panels, furniture and cabinetry, supporting custom patterns for classic- style decoration.

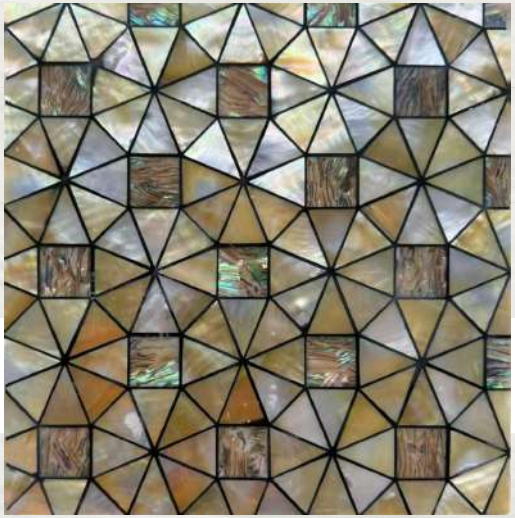

Shell mosaic standard tiles ready-to-install for direct wall application.

"3D Textured Wall Fabric"

3D stereo wall-covering features distinct three-dimensional textures on its surface.
Made of high-quality textile materials, it creates rich depth and layered visual effects for interior spaces.
Multiple texture options are available, including embossed, woven and carved styles.

Usage scenarios:

Residential living rooms
Hotels hall
Commercial spaces.

"Leather/Wall Fabric Profile"

Hard upholstery is widely used for bed-head and sofa background walls.
With solid base combined with premium fabric or leather surface, it delivers neat shape, soft touch and elegant visual effect.
It improves space layering, reduces noise and brings comfortable sense. Customizable in size, colour and pattern, perfect for residential homes, hotels and commercial spaces.

Usage scenarios:
Residential living rooms
Hotels hall
Commercial spaces.

"Horizontal-stripe linen-upholstered hard panels"

Hard wall panels upholstered in natural linen, offering distinctive tactile texture beyond plain painted walls.

“Stainless-steel trim hard-upholstered panels”

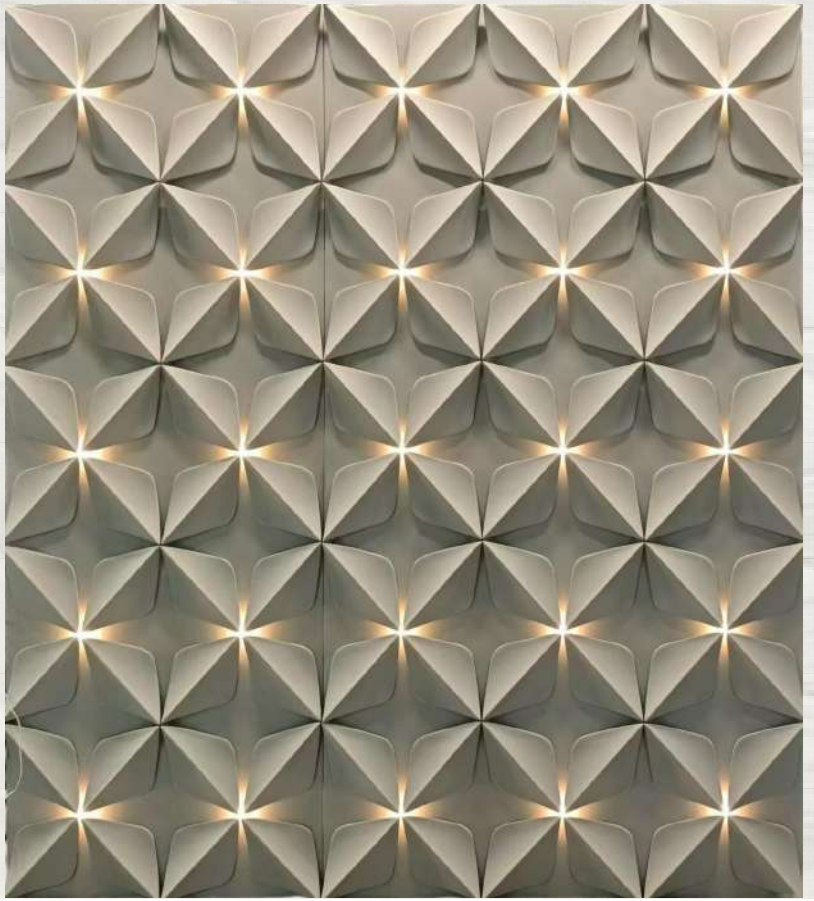

Stainless-steel trimmed upholstered hard panels infuse the space with rich textural depth, while the flared wing- shaped edges lend a playful, distinctive charm to the interior.

"3D sculpted hard-upholstered panels"

Moving beyond ordinary flat painted finishes, the two designs strike a balance between ornate artistry and restrained elegance, bringing diverse aesthetic possibilities for modern interior projects.

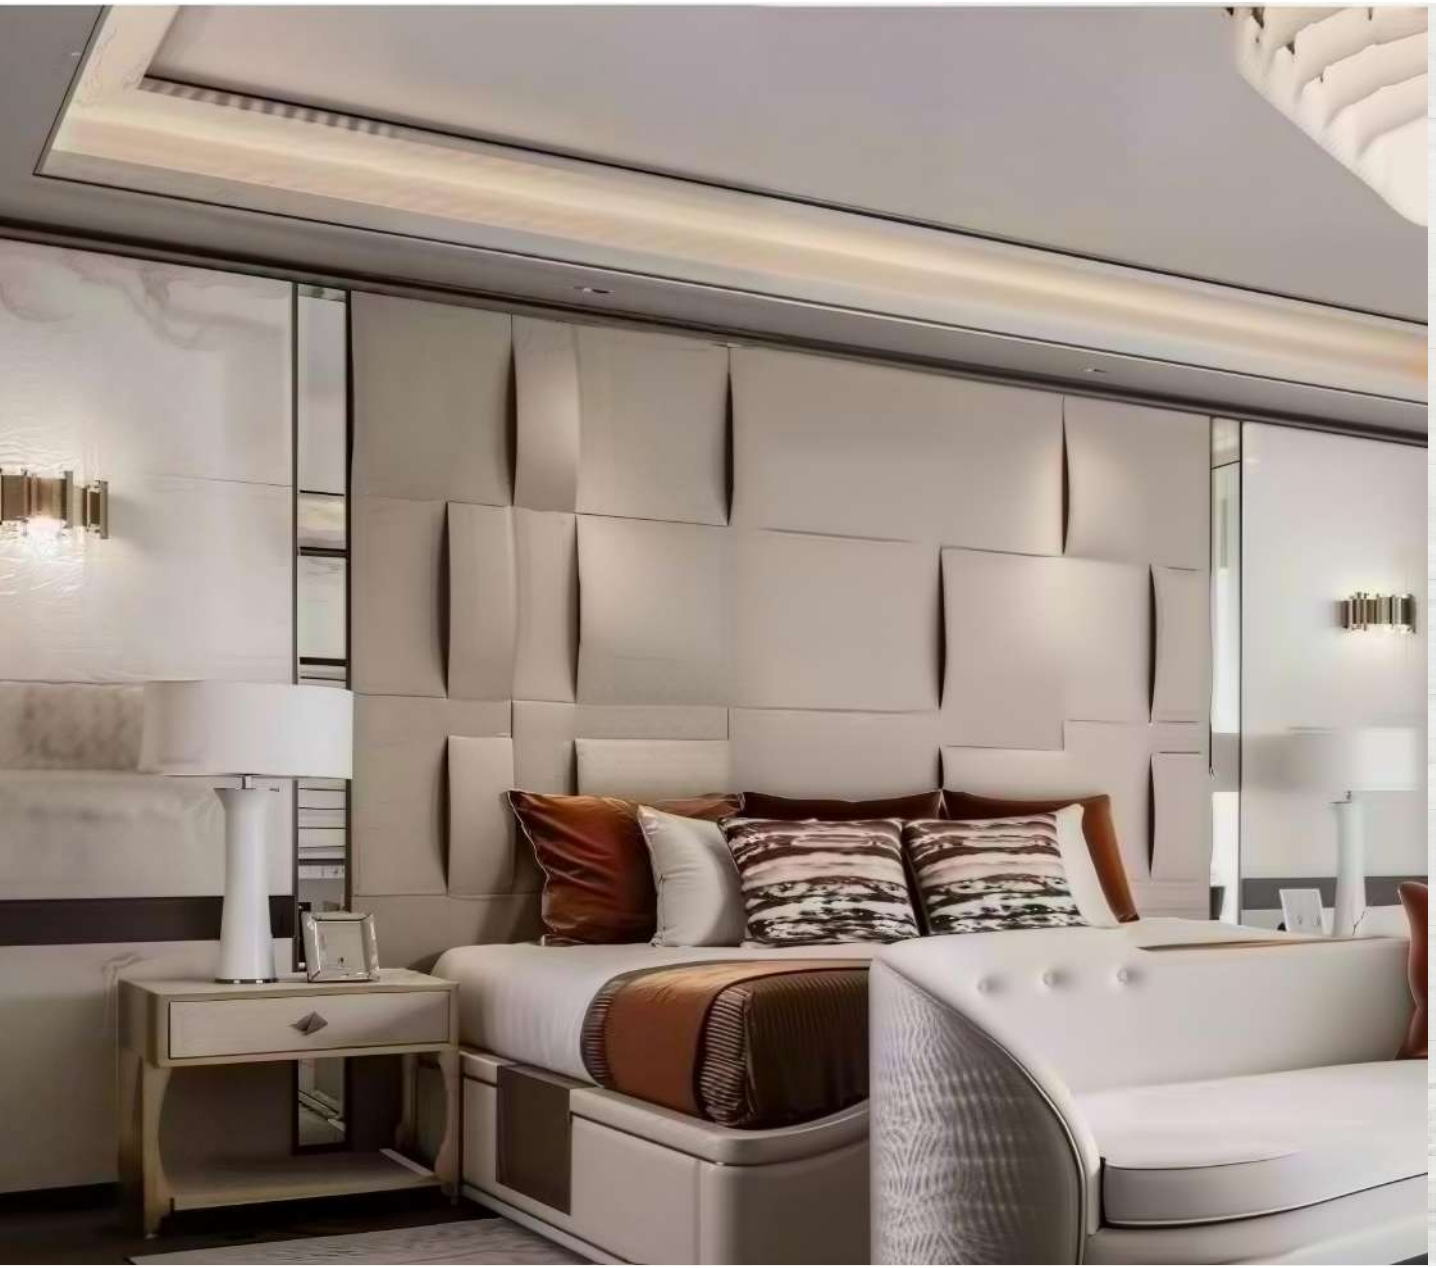

“The Serene Art of Spatial Atmosphere”

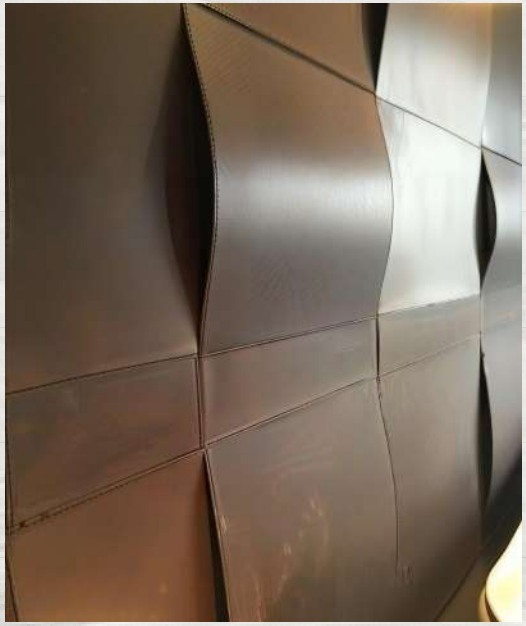

Gentle indirect lighting diffuses across the facade, softening rigid architectural lines and fostering a serene, understated- luxury and cozy spatial atmosphere.

"The shadows of bamboo leaves"

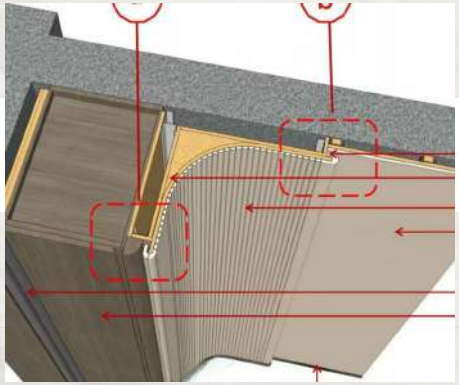

Interwoven soft leather textures break the flatness of conventional wall finishes, endowing the bedroom with elegant and refined luxury.
